## Professional Summary

Senior DevSecOps Engineer and Cloud Architect with a proven track record of leading secure cloud transformations, building scalable infrastructure, and driving automation across AWS, GCP, and Kubernetes environments. Experienced in designing resilient CI/CD pipelines, enforcing compliance standards, and aligning engineering practices with business outcomes.

Skilled at guiding teams toward modern DevSecOps maturity through Infrastructure-as-Code (IaC), observability, and cost-efficient cloud operations.

### Technical Skills

- Cloud Platforms: AWS, GCP, Azure
- IaC & Automation: Terraform, Ansible, CloudFormation
- CI/CD: GitHub Actions, CircleCI, GitLab CI/CD, Jenkins
- Containers & Orchestration: Docker, Kubernetes, Helm, ECS
- Monitoring & Security: Prometheus, Grafana, Vault, ZAP, New Relic, DataDog, Logrocket Open Policy Agent
- Scripting: Python, Bash, Go
- SCM: GitHub, GitLab, Bitbucket
- OS: Linux (Ubuntu, CentOS, Amazon Linux)

### Education

B.Tech, Information Technology  
Federal University of Technology,  
Minna  
2014 – 2020

### Certifications

- KCNA – Kubernetes and Cloud Native Associate
- ISC2 Candidate (Cybersecurity)
- HackerRank – Intro to Python

### Work Experience

#### Technical Support Engineer | Port.io | Remote | May 2025 – Present

- Deliver enterprise-level technical support, troubleshooting, and resolution for platform users.
- Collaborate with product and DevOps teams to reproduce issues and drive fixes.
- Build internal knowledge bases to improve support turnaround time and reduce recurring incidents.

#### DevSecOps Consultant | NexusNova Technologies | Remote | Aug 2024 – Present

- Architect and implement secure, automated CI/CD pipelines with integrated DevSecOps controls.
- Optimize cloud environments across AWS, Azure, and GCP for security, scalability, and compliance.
- Drive cross-functional monitoring, logging, and incident response workflows.
- Conduct risk assessments and SDLC audits, providing strategic DevSecOps recommendations.

#### Senior DevOps Engineer | Dukka | Remote | Jun 2024 – Aug 2025

- Migrated infrastructure from AWS to GCP with minimal downtime and improved scalability.
- Designed secure CI/CD pipelines reducing deployment time by 70% using GitHub Actions.
- Managed Kubernetes clusters ensuring 99.9% uptime and high reliability.
- Implemented monitoring frameworks cutting incident response time by 50%.

## Programming

- Udey – Machine Learning A-Z

### **DevOps Engineer | Sproutly (MTN'25) | Hybrid | Mar 2023 – Oct 2024**

- Engineered multi-cloud infrastructure (AWS, GCP) using Terraform and Kubernetes.
- Automated deployment pipelines reducing manual operations by 40%.
- Integrated observability stack (Grafana, Loki, Prometheus) improving reliability metrics.
- Collaborated with developers to enforce CI/CD and SRE best practices.

### **Back End Developer / DevOps Engineer | Boldd | Remote | Nov 2021 – Apr 2022**

- Automated software delivery pipelines, boosting deployment frequency by 30%.
- Implemented backend provisioning APIs with FastAPI and automated testing.
- Applied cloud security and performance tuning best practices across AWS resources.

### **Data Scientist & DevOps Engineer | eHealth4everyone | Nigeria | Jan 2021 – Nov 2021**

- Managed AWS infrastructure and CI/CD workflows improving uptime and delivery speed.
- Conducted cloud security assessments, achieving compliance readiness.
- Built data ingestion pipelines for national vaccination record management systems.

### **DevOps Engineer | Freelance | Remote | Jun 2022 – Jun 2025**

- Developed AWS CloudFormation templates and IaC automations across multi-account orgs.
- Implemented AWS Backup & Audit Manager integrations with automated reporting.
- Built ransomware recovery orchestration systems improving resilience.

## Internships & Early Experience

Organization	Role & Duration
Hamoye.com	Data Science Intern   Jun 2020 – Dec 2020
She Code Africa	Data Science Mentor   Oct 2020 – Dec 2020
NNPC Retail Ltd.	Intern   Jun 2018 – Dec 2018
